

Cronulla Crays communication 2014/15

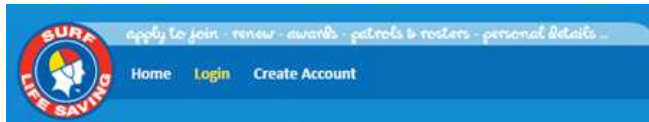

CRONULLA SURF LIFE SAVING CLUB

EMAIL:

Age managers will email out information from time to time but we have found this is not as effective as some people do not check emails frequently.

Knowing this urgent and important information will be sent out differently this season.

Please ensure you have a valid email in the "personal details" section of surf lifesaving online:

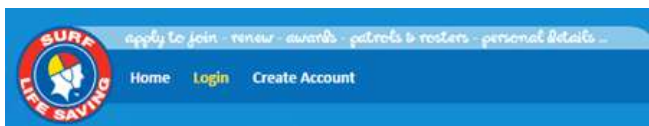

https://www.lifesavingonline.com.au/SLSA_Online/modules/login/index.php

SMS:

We will try to use SMS as an instant form of communication to members.

Please ensure you have a valid mobile number in the "personal details" section of surf lifesaving online:

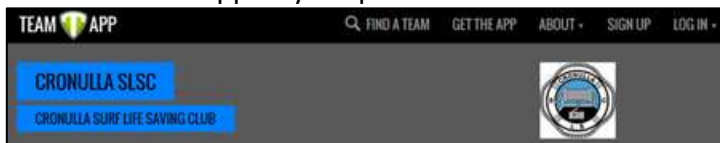

https://www.lifesavingonline.com.au/SLSA_Online/modules/login/index.php

TEAM APP:

This is a new communication used by the Cronulla Surf club (junior and senior). This is both a website and smart phone application.

All important information will be posted here and notifications can be set up to be sent to your phone.

Download the app to your phone and create an account (Note: Account name should contain competitor's names)

<https://cronullaslsc.teamapp.com/>

FACEBOOK:

Some of you may have noticed we now have a **Facebook page**.

- This page is used as a public site to post photos and promote the club. (Not general communication)

What you may not know is we also have a "**Member group**".

- This group will be used for the club to communicate with members but can also be used for member to member or member to club communication. Please join the group and get involved.

<https://www.facebook.com/groups/692337904179662/>

WEBSITE:

Along with all the above devices, as usual the latest information will also be available on our website:

<http://www.cronullanippers.com.au>
